Shown here are only a sample selection of Gobo Patterns for use in ellipsoidal spotlights to project images. These patterns are available in the "E" size for the Micro-Ellipse, the standard "B" size to fit many spots, and several others. Price is \$12.25 each, buy 8 or more mixed for \$10.95 each.

Most often used as scenic elements in theatre and concerts, the images can also add accent interest in restaurants, lounges, exhibits, and special events. Excellent for backgrounds behind newscasters and interviews in video production.

[For full Rosco gobo catalog click here.](#)

Custom gobos can be created on request from sharp black/white and color digital images to project graphics and logos. Please inquire.
