

**SOFTLIGHTS:**

Provide soft, even fill light that reduces shadows. The light is reflected off a matte reflector surface. Softlights are often used on stands for low fill lighting, or may also be hung from the light grid.

**SOFT-LITE. and SOFT-LITE JR.:**

Standard open-face fixtures equipped with matte white reflector. Jr. model with 8" x 8" opening uses one lamp. It includes metal yoke with 1/2" hole, color frame, safety cable, and 3' cord (no plug). Full size model with 8" x 16" opening uses two lamps. It includes cast aluminum yoke with socket to fit onto 5/8" stand top stud, color frame, safety cable, 25' cord with in-line dual switch for 2 lamps (no plug). Egg crates may be used to control spill light. Jr model requires F-SAS stand adapter for stand use. Both models can use double ended lamps from 300-1000 watts.
