## ABOUT SCENERY PAINTS:

Three standard types are available. **IDDINGS** (casein), **OFF BROADWAY** (vinyl latex), and **SUPERSATURATED** (acrylic). All are water based for easy clean-up of brushes, but, after drying, become permanent. All three types may usually be intermixed with good results. Both **IDDINGS** and **SUPERSATURATED** paints are formulated to be diluted with water to create a working consistency. **OFF BROADWAY** paint may be used as is out of the bucket. Scenic paints dry to a thin, flexible, completely matte, non-reflective finish which is necessary for painting scenic drops. [Most "flat" paints from retail stores actually have a percentage of gloss in them which can cause glare from the stage lights.] **TEST KITS** containing 1 oz. samples are available for each type of paint. Kits are a good resource and teaching tool for designers and students to make renderings of set and costume designs. Color cards, and a full Rosco catalog are available free, on request.

## IDDINGS CASEIN PAINT:

This traditional paint for scenic artists for over 30 years has a wide range of colors. For painting muslin, scenic drops, flats, wood, and cardboard. Mix with water 1:1, 2:1, or more. Works best with "water color" techniques of overlaying colors and thin washes of color. All colors available in gallon cans (and quarts on special order). White and Black also available in 5 gallon cans. Specify size when ordering.
