

PAR 16 Bar

PAR 16 BAR

Ten PAR16 miniature spots mounted on a black bar (raceway) and wired in series for operation on 120 vac. Uses 50 watt 12 volt MR16 lamps for a total of 500 watts. Each spot may be individually swivelled and tilted. Indicator lamps on the bar next to each spot light show any lamp which has burned out, making lamp replacement easy. Bar is 2" x 2" square and 5' long and has a flange with 2 holes at each end to fasten to a ceiling. Includes a 5' power cord with molded U-ground plug and fuse. Each spot includes a color frame. Weight of assembly is approx. 9 pounds. Black bar with either black or polished fixtures. Lamps are not included.

PB-2101B	PAR 16 Bar with black fixtures	\$ 226.00
PB-2101P	PAR 16 Bar with polished fixtures	\$ 226.00

PAR 16 Spots

Miniature PAR spots are available in several styles for use with PAR16 reflector lamps in either 120 volt or 12 volt. Aluminum housing is available in either black or polished finishes. Includes color frame. Fixture is approx. 2.5" dia. by 5.5" long. Yoke has 3/8" dia. mounting hole. Total weight is less than 1 pound. Lamp not included. PAR 16 spots with shorter barrels for use with wide lamps are available as special order item.

PL-16LB-E27-K	PAR 16 black spot with E27 medium screw base socket for 75 watt 120 volt lamp, 3' three wire grounded cord and u-ground plug	\$ 21.00
PL-16LP-E27-K	Same as above except with polished finish	\$ 21.00
PL-16BR	Ceiling mount PAR16 fixture fits on to standard electrical box. Includes RU listed electronic transformer in the base to step-down 120 vac line voltage to 12 volt used by the lamp. Max. 50 watt MR16 lamp.	\$ 28.50
PL-16PR	Same as above except with polished finish	\$ 28.50
PL-16BT	Track mount PAR16 fixture fits on to standard Halo "H" style lighting track available at most home improvement stores. Includes RU listed electronic transformer in the base to step-down 120 vac line voltage to 12 volt used by the lamp. Max. 50 watt MR16 lamp... ..	\$ 28.50
PL-16PT	Same as above except with polished finish	\$ 28.50
PL-16LB	PAR 16 black spot with G6.35 socket and 6" leads for MR16 12 volt lamp. This fixture is for assembling your own lighting assemblies. End user must provide the required 12 volt source using external transformer.	\$ 13.50
PL-16LP	Same as above except with polished finish	\$ 13.50

PAR 20/16 Spot:

Compact PAR spot uses 75 or 100 watt 120 volt PAR16 medium screw base (E27) reflector lamps or PAR20 size reflector lamps for intense light beam. Because this compact fixture uses a line voltage bulb, the spot is dimable using any dimmer. Includes 3' cord with u-ground molded plug and color frame. Fixture is approx. 3" dia. by 7" long. Yoke has 1/4" dia. mounting hole (can be enlarged with drill to 5/16"). Total weight is less than 1 pound. Lamp not included.
