

CENTURY STANDS:

Workhorses of the film industry. Three legs rotate around to fold flat for storage or snap into place for use. Available in chrome plated steel, or with lighter weight black anodized aluminum risers and black chrome steel base. All models have 5/8" dia. mounting stud at top. Turtle base model has low height base and separate 40" double riser pole. Base may be used with #E200 adapter as very low stand. Sliding leg models have one leg which may be raised up the pole to adjust for steps or unlevel surfaces. All Century stands open to form 32" dia. base, and have two telescoping pole sections. *Black chrome steel base.
