Folding Truss Portable Screen

Many choices of style, size, appearance, and price are available. Please request a full screen catalog.

SIGNATURE:

Premium motorized screen with **tab tensioning system** and automatic ceiling closure for hidden installation into a ceiling. Unlike other recessed screens, the door of this model disappears up into the case instead of hanging down in sight. Black borders on the screen surface are standard. Available with M1300 and M2500 and Cineflex (rear projection) screen surfaces in AV, Video, and HDTV format sizes up to 12'h x 12'w.

ENVOY:

Intermediate quality recessed motorized screen with automatic closure. Motor-in-roller design. Available with matte white, glass beaded or Panamax (seamless) screen surfaces in AV, Video, and HDTV format sizes up to 12'h x 12'w.

PARAGON:

Extra large size screens have motor-in-roller design. Available with matte white or glass beaded screen surfaces in AV and Video format sizes up to 21'h x 28'w.

ARTISAN:

Motorized screen in hand rubbed solid hardwood cases with three choices of wood trim style. "E" model has standard screen, while "V" model includes **tab tensioning system** for perfectly flat screen surface. Optional 12" additional black screen surface above image area. Available in several sizes and formats up to 8'h x 8'w.

PROFILE:

Designer styled case of extruded aluminum with curved ABS plastic fascia and end caps is available in 4 solid colors, and 5 optional finished hardwood veneers. Available with 120vac motor or 12vdc motor with rechargeable battery. Optional infrared control. Choose from matte white, glass beaded, Reflex 4000 or new AT1200 acoustically transparent screen surface in several AV, Video, or HDTV format sizes.

ROLLERAMIC:

Heavy duty motorized screen for wall, suspended, or recessed mounting. Case is black painted wood composition. Available with matte white, glass beaded or Panamax (seamless) screen surfaces in AV and Video format sizes up to 20'h x 20'w.

TARGA:

Moderate cost motorized screen with metal case and motor-in-roller design. Standard case color is dove grey with optional black or white colors. Available with matte white, glass beaded, or Panamax (seamless) screen surfaces in AV and Video format sizes up to 12'h x 12'w.

CLARION:

Wall mounted static screens have a 1-3/4" extruded aluminum frame with snap on screen fabrics. Shadow box style has visible frame as border for screen. WrapAround style wraps fabric completely around the frame. Several frame finishes available including black and white acrylic, colored laminates, and hardwood veneers. Optional hand cranked or motorized tilt mechanism eliminates keystoning of image. Wide selection of screen surfaces in AV, Video, or HDTV formats up to 15' diagonal or 6'h x 18'w.

EVENROLL:

Manually operated roll-up screens use simple rope and pulley system to raise screen by wrapping it around a roller in the bottom. Particularly useful for large auditoriums, gyms, arenas, and stages. Includes top batten of 2x4 or 2x6 lumber. Available in matte white or glass beaded screen surface in AV sizes up to 30'h x 30' wide. May be motorized with optional remote located motor.

CINFOLD PORTABLE FRAMED SCREENS:

Folding aluminum frames with front or rear projection screen surfaces are for temporary setups as part of exhibits, presentations, and industrial shows. Frames are fabricated of 1" square aluminum tubing which breakdown to store in carrying cases along with the screen surface. For larger screens, the frame uses a rigid truss design for strength and rigidity. Extensions to the frames for supporting masking drapery are also available.

Custom decorative and masking draperies
can be provided for both portable and permanent installations. Please ask for prices.
